WORK EXPERIENCE

Libertas School of Memphis

Memphis, TN

Data and SIS (Student Information Systems) Specialist

September 2022 — July 2023

- Managed all student information systems and support their data transmission to our data warehouse (Google BigQuery): PowerSchool SIS, SchoolMint, and ClassTag.
- Analyzed and communicated data trends to school administration members by creating dashboards for tracking many data points key to funding various programs (Google Data Studio & Google Sheets): student attendance, state testing scores and growth over time, pre-kindergarten family referrals, etc.
- Developed custom software tools for creating family/student facing documents (Google AppScript): report cards, car name tags. These tools replaced subscription software tools that the organization had been using for years.
- Administer all software and hardware IT needs for teachers (FreshDesk): Google Workspace admin, Chromebook repair/distribution, WiFi/network admin (Aruba Central), and printer troubleshooting (Konica Minolta Bizhub)

ALLMemphis

Memphis, TN/Remote

Associate Technologist

May 2021 — July 2022

- Managed and edited content for our WordPress allmemphis.org website.
- QA tested and collected and edited curriculum data for our web app, Ditto Literacy, a portal designed for teachers to quickly generate software-customized curricula for students.
- Served as a main contact between ALLMemphis and our contracted software developers.
- Edited static documents (Adobe Acrobat and Illustrator; Figma) and videos (iMovie and DaVinci Resolve) to reflect new marketing/design additions of brochures, worksheets, etc.

Transnetyx

Cordova, TN

Technical Services Associate

March 2021 — April 2022

- Provided level 1 help desk support and troubleshooting through HappyFox tickets for more than 250 employees both locally and internationally (remote): created and managed Office365 accounts (Azure Active Directory), deployed software to end users (Desktop Central), managed security door key fob access (Sonitrol), and repaired/replaced/upgraded staff laptops and desktops.
- Assisted with major IT upgrade projects: on-site WiFi upgrade (Cisco Meraki), phone system transfer (from Shoretel to Windstream/WeConnect), transitioning on-site physical servers to virtual Nutanix clusters.

[SELF EMPLOYED]

Remote

Personal Web Design/Development Tutor

August 2020 — June 2022

- Provided instruction to high-school students to create website projects and games (LINK HERE).
- Developed weekly curriculum to help students advance their skills with HTML/CSS and JavaScript.

iD Tech Camps

Memphis, TN/Remote

Instructor

May 2019 — March 2021

- Provided instruction for Online Private Lessons (Remote) from April 2020 to March 2021. Taught Java, JavaScript, Python, HTML/CSS, and Scratch programming to children aged 8-16 years old with custom curriculum tailored to each student.
- Provided instruction for Tech Camps (In-Person) from May to July 2019. Taught Java (Minecraft Mods), JavaScript (BBC micro:bit), and Python (Anki Cozmo) to children aged 9-13 years old.
